HIDI Advantage® Analytics

Premier Data Package

EXCLUSIVE OFFERING!

The Hospital Industry Data Institute® offers subscriber-based **Premier Data Package** to HIDI-participating hospitals and systems at a fraction of market cost. Refreshed quarterly or annually, premier packages include timely access to analytics-ready HIPAA-defined limited data sets to support decision-making in the areas of **marketing, strategic planning, quality, safety, population health** and **community benefit.** At additional cost, data can be optionally enhanced with HIDI-curated encounter-level indicators of chronic disease, social determinants of health, risk-adjusted readmissions and more. A Premier Data Package subscription delivers exceptional value for your hospital or system. Learn more or subscribe today at **HIDIadvantage.net.**

Unlock Insights With Analytics-Ready Data

- assess the market and predict risk by leveraging statewide hospital encounter detail
- target interventions to support care coordination efforts to reduce excess hospitalizations
- monitor change and develop timely insights across providers and geographies

Distinctive Benefits

- refreshed timelier than alternative sources, including resident hospitalizations in adjacent states
- policy impact and analysis insights not available elsewhere
- access conveniently through our secure HIDI Advantage® User Portal

Optional Enhanced Indicators Available

Premier data package subscriptions can be augmented with an extensive library of more than 300 geographic, sociodemographic, behavioral, clinical, social determinant, and quality outcomes indicators and measures that are HIDI-curated for analytics-readiness. Learn more online.

Better Data. Better Decisions.
